

# Configure Caja scripts

Keyboard shortcuts for caja to copy and move files as well as open a file with the gimp.

Please make sure the ; character is removed.

Please insert your username at the "USERNAME" text entry

Please insert scripts in /home/USERNAME/.config/caja/scripts

If you are using an alternative text editor then xed insert it ie nano , gedit , pluma , medit , mousepad

**xed ~/.config/caja/accels**

**Add a line to gtk\_accel\_path actions and repeat for all scripts**

```
(gtk_accel_path "<Actions>/ScriptsGroup/script_file: \\s\\s\\shome\\sUSERNAME\\s.config\\scaja\\sscripts\\gimp.sh" "<Alt>d")
```

```
(gtk_accel_path "<Actions>/ScriptsGroup/script_file: \\s\\s\\shome\\sUSERNAME\\s.config\\scaja\\sscripts\\move.sh" "<Alt>z")
```

```
(gtk_accel_path "<Actions>/ScriptsGroup/script_file: \\s\\s\\shome\\sUSERNAME\\s.config\\scaja\\sscripts\\copy.sh" "<Alt>c")
```

Take note if you fail to move or copy a selected file Caja will display a error that can be exited using the escape key.
